

KABIFIX LK 25 CABLE STRIPPER

Tool Part No. HT-CCS-6/25

Replacement Blade Part No. HT-CCS-6/25-SB

For Optical cables, Coaxial and Moisture-proof cables,

Plastic insulated cables Ø 6 - 25 mm (1")

Cutter for plastic tubes Ø 6 - 25 mm (1")

Features:

- An accurate cable stripper even for strong outer sheaths with aluminium screening, especially constructed for Optical cables.
- Change from circular to longitudinal cut by rocking lever.
- Specially-ground hardened blade, replaceable.
- Robust body of fibre reinforced polyamide.
- Light weight.

Directions for use:

- Push ratchet up until blade enters insulation.
- Cut circular by winding KABIFIX around the cable.
- Cut longitudinal after turning rocking lever 90°.
- Press stop pawl and move ratchet back.
- Adjusting the blade: Loosen rocking lever.
- To lengthen blade, turn adjusting screw right.
- To shorten blade turn adjusting screw left.
- Replacing the blade: Unscrew rocking lever completely, lift off blade holder, remove and replace blade.
